Question 14

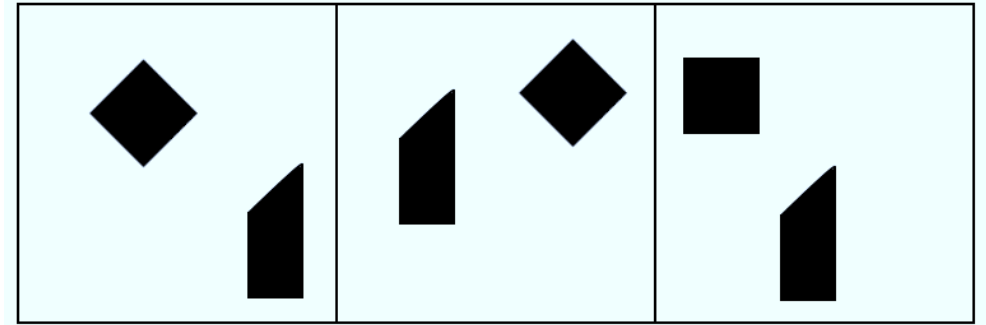

Question 15

Question 16

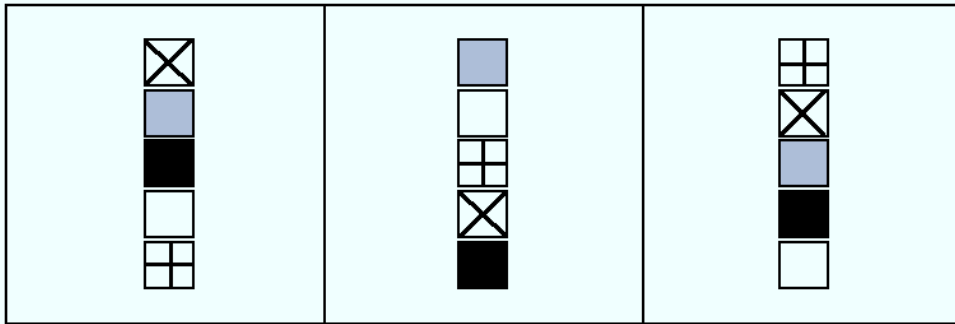

Question 17

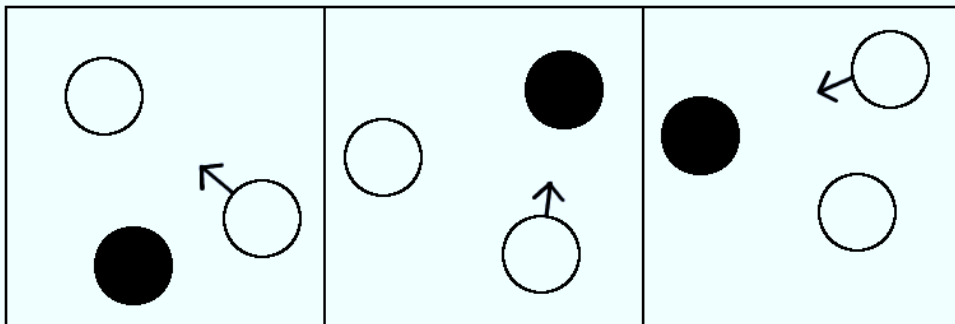

Question	Answer	Reason
1	C	Line between circles is longer
2	B	One of the points of the star is longer
3	A	Three loops rather than two
4	C	Four 'arms' rather than five
5	B	Facing the other way
6	C	Four crosses rather than three
7	C	Three circles in the box rather than two
8	A	Box missing in the middle
9	B	Some of the boxes are paired
10	C	Fishes are not in a straight line
11	A	Clockwise arrow
12	C	Arrow points to white circle
13	A	Significantly more stars
14	A	North West and South East quadrants filled
15	A	Star is outside the 'S' loop
16	A	Two right arrows rather than one
17	C	Square is not rotated on its edge

Odd one out - relative positions

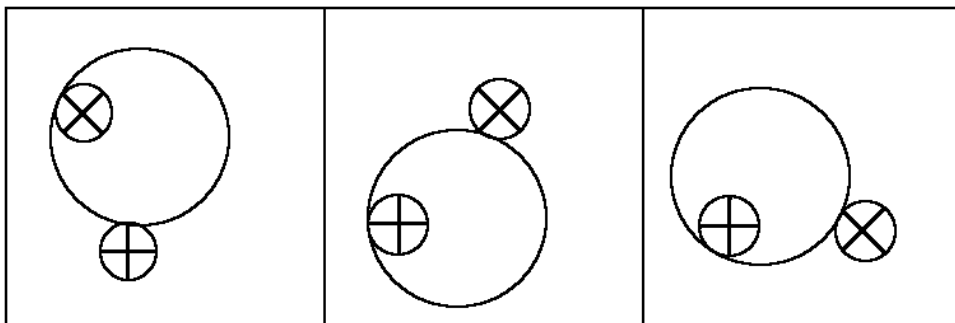

Question 1

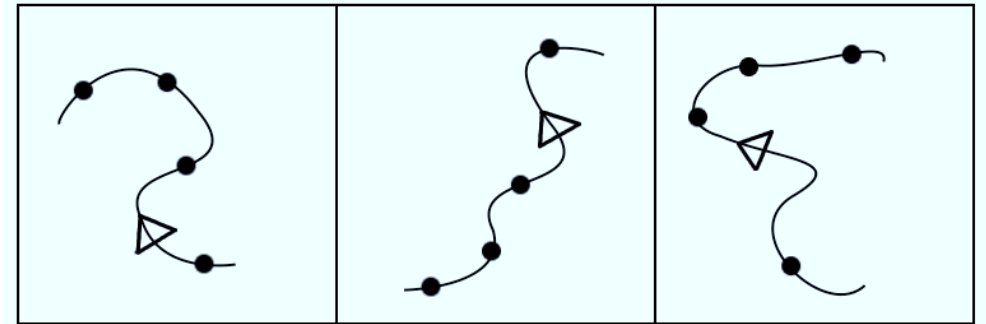

Question 2

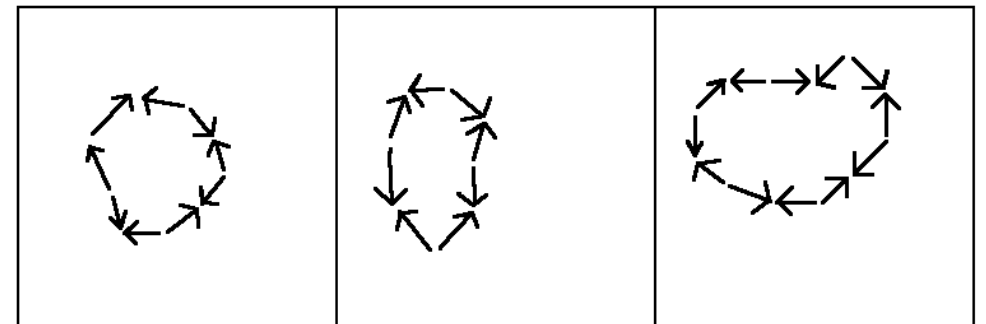

Question 3

Question 4

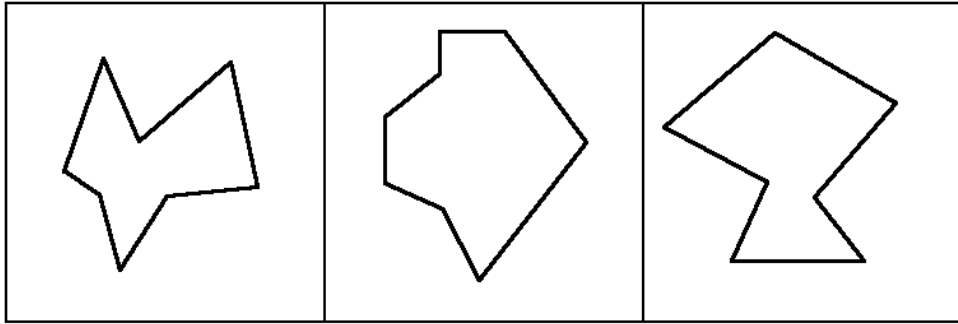

Question 5

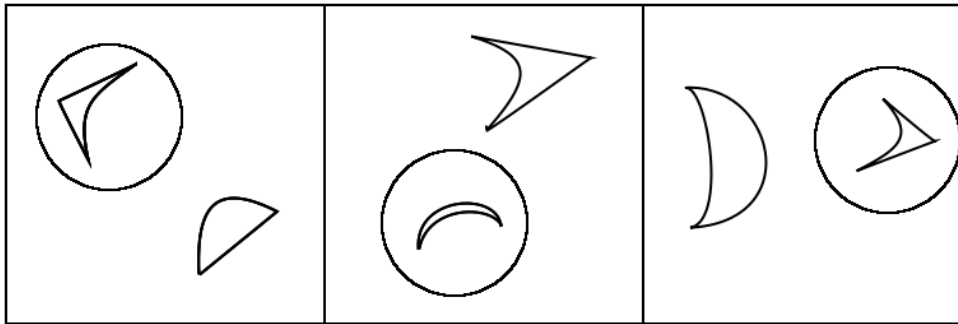

Question	Answer	Reason
1	B	Order of boxes is same for A & C
2	A	Arrow points to black circle in B & C
3	A	A has diagonal cross inside the circle, not outside
4	B	Arrow points towards one dot, not three
5	A	One arrow does not pair up and point at another

Odd one out – number of sides

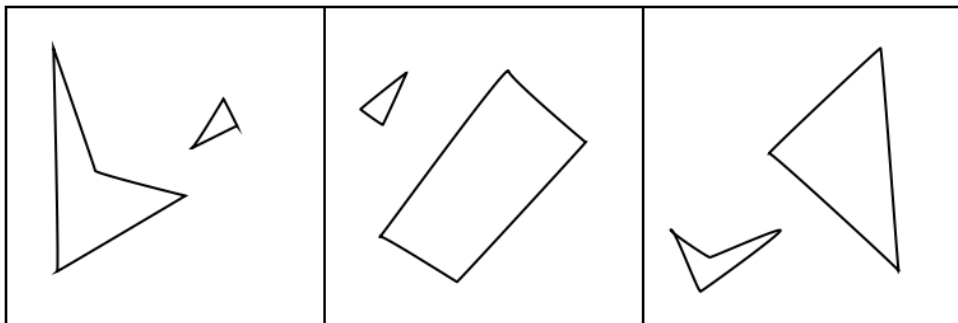

Question 1

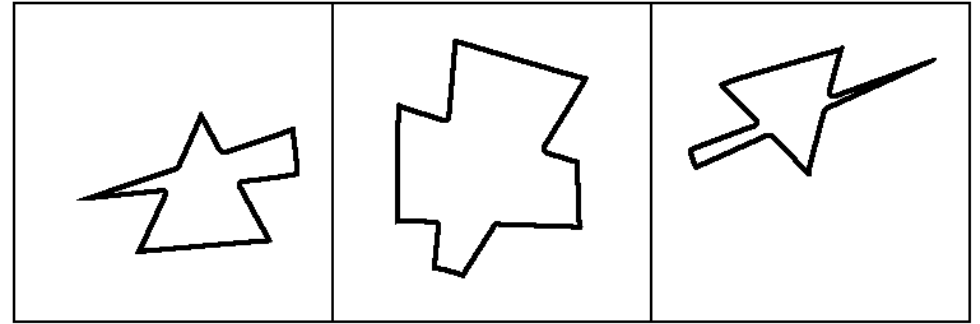

Question 2

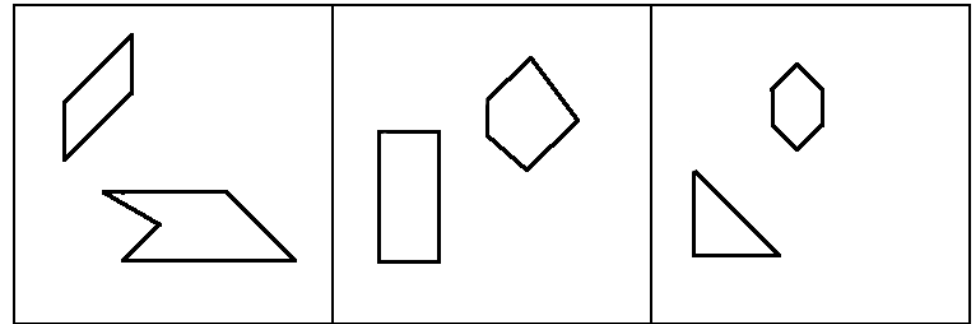

Question 3

Question 4

Question 5

Question	Answer	Reason
1	C	C has 7 sides. A & B have 8 sides.
2	B	In B, the 2 sided shape is <i>inside</i> the circle and 3 sided shape outside.
3	C	In A & B the large shape has 4 sides and the small has 3 sides. In C, this is the other way around.
4	B	In A & C the shape is made up of two triangles, whereas in B it is made from two 4 sided shapes.
5	C	A & B have a 4 and 5 sided shape. C has a 3 and 6 sided shape.
